About Me

Digital Graphic Design is my passion! I love creating digital art. I have done a wide variety of multimedia, 3D, and website designs.

- * Effective team player and communicator
- * Proficient in creative graphic design, multimedia development, and motion graphics
- * Illustrations and digital art
- * 3D modeling, texturing, rigging, lighting, and rendering
- * Web design and implementation

Web Designer

Education

University of Advancing Technology: (AA)
Multimedia & Graphic Arts (Cum Laude)

Experience

2010 - Present

Freelance graphic designer, animator, web designer, logo, print, multimedia, and art. Design websites from visual conception (mock-up) to actual coded and working websites. Conceptualize and design animations and typography. Create exciting advertising material - brochures, flyers, and business cards. Design, model, and rig 3D and 2D animation.

For Hire or Freelance

Extensive use of several designing software.
Ability to conceptualize and think visually.
Ability to work well alone and within a team.
A very good understanding of design principles.
Excellent technical skills enable me to use my knowledge of designing theories.
Designed and built my own workstation PC.
